```javascript
var xhr = new XMLHttpRequest();

function sessionCheck(filepath, responseFunction) {
    //if the server is in an available state ready to do another request
    if (xhr.readyState == 0 || xhr.readyState == 4) {
        //run the server side script php for this function
        xhr.open('GET', filepath, true);
        xhr.onreadystatechange = function () {
            if (xhr.readyState == 4) {
                //if the requets was successfull and returned a response
                if (xhr.status == 200) {
                    //run function
                    responseFunction();
                }
            }

        }
        xhr.send(null);
    } else {
        setTimeout(sessionCheck(filepath,responseFucntion), 1000);
    }
}

function response(){
    var xmlDocumentElement = xhr.responseXML.documentElement;
    var message = xmlDocumentElement.firstChild.data;
    console.log(message);
    document.getElementById('fullName').innerHTML = message + '!';
}

window.onload=function(){

    sessionCheck("http://localhost/supremeBot/profile.php",response)

}
```
